

Looking to stay up to date about events and news in Milwaukee Public Schools. Use the MPS app to access information quickly and easily. MPS has a district app, accessible by Android and Apple smartphone platforms, so families can receive instant updates and access important information about their child's school and progress.

The app offers quick access to calendars, breakfast and lunch menus, transportation information, district news, job postings, and more. More important family members can also access Infinite Campus, the district portal to review student grades, progress, and attendance. Families who download the app will receive instant notifications about school closings, and can select their children's school to receive notices that are school specific.

MPS invites all students, families, staff, and community members to download the app, explore district offerings, and stay up to date on important developments.
